**Interlogue:**

Two major sectors are now in two days paralyzed.  
They are even more paranoid than they already  
were.

Anarchy is reduced to the individual.  
The individual is reduced to Anarchy.  
This is absolute

You create your Future each infitesimally small  
part of time; by moving your hand in a certain or  
uncertain way you cause airparticles to move, which  
hit other airparticles, which hit other airparticles,  
which hit other eire particles, ad infinitum.

You can say a word which hits airparticles, which  
hit airparticles, which hit airparticles, ad  
infinitum.

**--Defenc ad absurdum, poetry ad infinitum--**

People are a mere measure of trust.

Trust is not infallible.

It is useless to do nothing by meditating to  
death because no one can predict their future.

The system of Nature has order.

**\* \* \***

People are systems.

Everything is Lies, ..

TheReFore everything is Truth
