my Great Grandfather of my mother became a multi-millionaire before the Japan - Russian war around 1920 when he was in Indonesia. One day he heard about the Moscow Metro and was told he would become rich beyond his wildest dreams so he invested everything into it. When the War broke out he lost his ownership of all bonds and dividends. He had to sell his large house in The Hague and move back to Indonesia where he was later captured by the Japanese and put in a camp where he was the only one of the Lang Family to die... To think we could have each been multi-millionaires is mind numbing...

Religious nuts

Jesus loves & forgives you; I don't.

Jesus said, "I don't love to ask for sex" from Jesus and he'll give it to you if you can only take the length of time with the gods of love, love (love I know who to spell it).

Can Jesus also heal my pimples?

Don't do anything!

If that's the Pope, no thanks.

Well then you shouldn't listen to the Devil.

Well then you shouldn't play the dark songs.

By the way I want the Bible I'm dead.

Don't be humble when you can ask for more.

GOD Save US Jesus save us!

at least God also made drugs!

My piece or a piece of that?

If the purpose is to end up like Jesus the most likely to rebel, to imagine, for OK!

God does not exist because he's a big O.

Being a zero is better than being only one.

There can be only 1 Highlander. That's all that's left one of the most tilt.

If you can't deal with it, don't ask for it.

The only commandment followed: Don't kill.

Well the more of the commandment

No, I don't give a damn about the Book. If we can't judge then there is no law system. Hand in hand with sin together that's the true punishment is like S + M.

Holy Marys Bloody Marys, and Marys.

It's all symbolic. True not real!

Ohh it's definitely, Holy shit!

Don't cross me!

Yeah the praying manter... the Devil is a good scapegoat!

Since they wanted the Devil they to Bible is actually the book of Satan.

Don't get - God's little black book? ...

And if they get all that bear? Well then God is all that.

Exploding Swigs in a glass is also religious.

My religion is capitalism - NOT! Free Enterprise.

The Liberator is walking down of all religious.

The Devil is ~~was~~ gambling, swimming.

I would see for \$16,000 only.

If Allah provides then provide all this!

Sure I like the exonerated too!

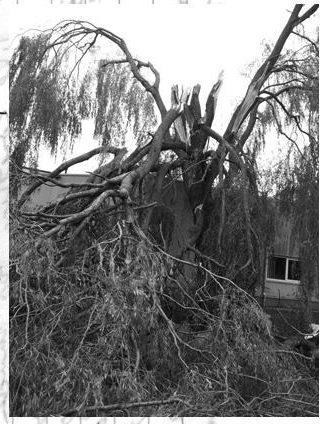

Since you can't kill the I give up!

Thankies to Jesus.

You don't go away and I won't
So forget the best

Give me another, and another,

You better pay the price
Or pay the end.

Death to the Nazis

Here I come on your face, again

You better pay the price
and peace is out

Watch me explode all over the place

I'd rather be in disgrace

Than hit you

Christ! Here I come again on your face, again

You better pay the price

Or pay the end.

You got me going
and now I don't stop.

Keep it up in the ~~front~~ lane
There's one more crater to burn

I'm the blasted lane

and now I don't feel no pain

Christ! Here I come on your face, again

You better pay the price

and peace is out

I'm gonna blow you the fuck away

Another night than I'm gone

Gonna make you happy

and I'll live long

You better pay the price

Or pay the end.

 Sometimes I'm sitting here

 wondering what the next one will bring
 To my candle top, knowing that,
 I'm in Europe, and the saying

 all alone, wondering what one
 who will be along again?
 Hoping, it won't be long then,
 hanging for a better man.

 Sometimes I'm sitting here
 wondering what the next

 for the world in my garden,
 It's the little things that add up
 You gotta believe

 Sometimes I'm sitting here

 coming down from party 3
 what'll it be next?
